

Freedom- salute to young generation

When the inkalabies slogan inkalab zindabad rattled the air the British govt. trembled with fear. So were their accomplices and agent provocateur. The aspiration and dreams of our freedom fighters where translated in to reality. Their blood and sweat bore fruit and the country were freed from the clutches of British rule.

Those were the times when the artists, the pedagogue, the philosopher, the poet, and the writers helped the movements in their own distinct way-the artists conveyed the message through their arts and cartoons, the writers through their soul stirring speeches, the poet with their revolutionary songs and the teachers through indoctrination of youths' mind. Could ever forget their selfless deeds? Should we not devote our little time and energy for other. The plight of artists (the musician, the weavers, craftsperson and folk artists) are not hidden from us.

Intoxicated youths are forgetting their national heritage and cultural pride. The twin vices of parochialism and obscurantism has shrouded the mind of artists. This mental slavery has handicapped them and their inner potential fails to bear fruit.

We the Sarthi people have taken up the noble task of extricating the mind of youths from parochialism. Moreover we assist the artist to become self-reliant. So that their immense potential could not be jeopardized by the ever galloping inflationary economy.

Please assist us to improve the quality of life of the artists. Sarthi will always welcome your suggestions.

Very truly yours

(Rajeev Sethi)
